This enables the retailer / designer / reseller to offer to his customers a variety of products and services that are unique and offer unmatched value and quality.

Divish Aurum manages its operations in India out of the HQ located in New Delhi and its international operations from Norway, Estonia, Australia and USA.

COMPANY PROFILE AND BACKGROUND

We proudly mention that we make truly international class jewelry. Our collection follows the principles and guidelines of the best quality standard in the world, mainly Scandinavian / European.
Our entire manufacturing process is with a big difference. We make research based developments in terms of designs and products. Our process is a perfect fusion of both, the best of hands and technology hence optimizing the output.
In terms of design, we make nouvelle products using the latest calibrated CAD/CAM technology along with laser cutting, marking and welding techniques. On polishing we use pneumatic polishers plus multimedia including manual polishing techniques. We make jewelry for all occasions hence offering a wide spectrum to the interested and potential customers.
We are probably the only producers of platinum jewelry in northern India hence giving us an extra customer base and access. We provide due quantity and quality in terms of weight, details and certification for all the precious metals, gemstones and diamonds besides the laboratory confirmation on NO USE of synthetics and CVDs.

More than just being a jewelry supplier, we are a solution provider to our esteemed customers. We provide solutions to the emotional requirements of our esteemed clients. Based on this approach and service, we started our venture in to jewelry 20 years back from nowhere and set up a success story. After graduating our basic setup to the latest one, we have now pioneered the entire art and science of the trade. We are completely ready for a leap and expansion in real terms. Now that we are readily geared up with the creative, technical and commercial aspects of the trade, this is the opportunity to set up an example of perfect and fair business plan yielding success and identity. The challenge of being on the move constantly in all aspects right from design development to sourcing to manufacturing to selling to making a heart to heart connection with our friendly customer base keeps us always motivated and excited.

The products that we deal in are: Small star melee diamond Jewelry, Loose small diamonds (cut & polished), Loose certified solitaires (cut & polished), Loose fancy cuts and fancy color diamonds (cut & polished), Italian type fusion jewelry, Loose color stones / precious & semi precious jewelry, Platinum studded jewelry, Unstudded mountings in gold and silver, Plain gold and silver mountings, Silver studded jewelry / silver articles, Rough diamonds (uncut).

SERVICES

- CAD Designing / Prototyping / Manual Designing
- Repair / Maintenance and Restoration of jewelry
- Original supply chain partners to domestic and international chains
- Bullion and Coins
- Code sharing with different international / popular websites
- Promote and sell through international auction sites.
- SEO / Social Media Marketing with innovative offers

Business Interests

Exports and Joint Ventures.

- Kurian currently is the design principal of "werkstatt, "an architectural and design firm based out of Bangalore, dealing in retail concepts, hospitality design and residential architectural design

Company Profile

BIO-LUTIONS Eco tech India Pvt. Ltd. is a Private Limited company incorporated in the state of Karnataka. BIO-LUTIONS offers 100% bio-degradable packaging and disposable tableware solutions made solely out of agricultural waste without any additives. In order to produce such packaging and disposable tableware, BIO-LUTIONS will use agricultural waste, which has no alternative use (e.g. leaves from tomato and pineapple plants).

Our innovation is a patented mechanical process through which agricultural residual fibers are converted into self-binding Micro and Nano Fibrillated Natural Fibers using only water. The process does not use any chemical additives or involve the energy-intensive process of cellulose extraction. This way, chemical contamination and excessive use of water, both common to cellulose production are avoided. By our process, agricultural residue such as sugarcane leaves, pineapple plants, tomato plants, banana leaves and stems, wheat straw, rice straw, and water hyacinth are converted into all natural, biodegradable, recyclable, and 100 percent food grade packaging.

Local sourcing of raw materials and local production not only keeps the CO2 footprint low, but also results in lower production cost. Due to this we will be able to produce at a cost lower than our competitors.

Business Interests

He is a Graduate in Computer Engineering and has vast experience in project management, Transport, Mining, and Execution of infrastructure projects pertaining to roads, buildings, Industrial projects. He is also the President of Indian Wind Power Association (A.P & Telangana States) and he is an established leader in the renewable energy space. He is a committed champion of sustainable development in India.

Company Profile

M/s. Axis Energy Ventures India Private Limited is engaged in the business of Renewable Energy sector. Axis Energy Group is poised to be one of the fastest growing renewable energy developers in India and leads green energy initiatives to generate wind, solar and wind solar hybrid for promoting clean and green energy. Axis Energy Group has given an ambitious commitment of 12500 MW Renewable Energy (RE) Projects (Wind 7000 MW, Solar 5500 MW) during the RE-INVEST 2015 to the Government of India. The Company has undertaken 1.8GW wind projects as on date and has successfully commissioned 1GW in the State of Andhra Pradesh in India. Axis Energy Group is equipped with 1325.1MW PPA's with APDISCOM's to achieve the committed capacities. Axis Energy Group has also undertaken to implement Round the Clock (RTC) green power 5000MW (5000MW of Solar and 5000MW of Wind) of renewable energy project bundling with power generated from existing gas plants in the State of Andhra Pradesh to balance the intermittency and to achieve RTC green power under Bundling, Balancing and Banking (BBB) scheme.

Axis Mobility Pvt. Ltd. is one of the group companies of Axis Energy Group and is primarily focused on assembling, manufacturing, marketing and operating eco-friendly electric vehicles ("e-Vehicles"), implementing infrastructure as well as, power storage devices, and its auxiliary equipment. It conceived and developed a unique concept viz. smart ('smart mobility at renewable technology') aimed at integrating renewable energy technology with transportation system targeted for utilizing renewable energy for operating e-vehicles to achieve an eco-friendly transportation system with zero emissions at energy generation and consumption ends. The concept aids in reducing the pollution, operating cost and dependency on importing fossil fuels and also to hedge the operating cost for next 25 years. It has entered into MoU with Government of Andhra Pradesh, Department of Industries, Economic Development Board and NREDCAP to assemble, manufacture and operate electric Ucap buses during January 2018. It has also entered into MoU with APSRTC, NREDCAP and APTRANSCO on 26th February 2018 at CII Partnership Summit 2018, to spear head a Pilot Project (on non-commercial basis) In India.

As a qualified software engineer & business graduate from Westminster University in London, he has applied his skills in turning around the 38-year-old company which has then won numerous National Awards for Packaging Excellence.

The past president Mr. Abdul Kalam had honoured Mr.Vashikaran on two occasions for creative abilities. A fantastic R&D center for packaging called the Cube Lab, Mr.Vashikaran's brainchild- is the first of its kind in the country. Besides his experience in premium Packaging, he has also worked as an educator, leading a school of 3000 children to achieve their fame in many areas- including organizing many international student exchange programmes.

Mr Vashikaran lives with his wife and 3 children in Sivakasi.

Company Profile

The Bell Group was founded in 1952 by Mr.Chelladhurai, with the first company- the Bell Pins Manufacturing company creating about 500 jobs in Palayamkottai in Tamil Nadu. With its first exports to the USA in early 1970s, it broke China's monopoly in many sectors.

Bell Printers was founded in 1981 as printshop catering only to the printing and packaging needs of the Bell Group and Standard Fireworks, Sivakasi in which the directors held key positions. Even with just very basic print equipment, Bell won the National Award for Printing Excellence for its amazing large format posters. In 2010, the company relocated to its current location in a 5-acre state-of-the-art facility in the heart of Sivakasi, transforming itself into a corporate entity with a team of highly skilled staff and employees.

With a series of German Heidelberg presses and Japanese converting equipment, the company also introduced ISO 9000, 5S and Kaizen. The transition of the Luxury Rigid Box production from hand-made processes to automated manufacturing is instantly approved for global export. Bell Printers now dominates the Luxury Packaging segment in India. Our premium boxes gain mastery and acceptance at the NSS show in New York.

At the Asian Packaging awards in 2019, Bell won awards for Digital Packaging, and also chosen as India's most innovative Packaging Printer by the National Awards for Printing Excellence.

Business Interests

Bell Printers focuses on exporting luxury packaging across the world. In this context, exploring the opportunities at Iceland, Switzerland and Slovenia by our managing director will allow us to expand our business through establishing an office in London in the near future. And hence catering to these three markets.

Personal Profile

Hari Narayanan Namboothiri, is the vice chairman of Sreedhareeyam Group of Companies and has an experience of more than 22 years in manufacturing and Ayurvedic Ophthalmology Hospital.

The company is also one of the most prestigious pioneers in the field of Ayurvedic Ophthalmology in India by running successfully an Ayurvedic eye hospital for about 15 years- One of its own kind that concentrates on complete eye care. He is also the director of Care Keralam (Joint Venture company of Kerala Government and Ayurveda Manufacturing Association of Kerala).

Hari N Namboothiri has an array of awards to his credit for the exceptional entrepreneurial qualities displayed for the development of the brand Sreedhareeyam. Under his supervision, Sunetra Eye drops, the flagship product from Sreedhareeyam extended its reach to several countries, thus reflecting upon the years of hard work and research put into the development of the product. He has been instrumental in Sreedhareeyam extending its wings to 23 branches all over India. A true visionary and an expert exponent of developmental opportunities, under his leadership and guidance, Sreedhareeyam has metamorphosed into one of the largest ayurvedic healthcare service providers in the country.

Company Profile

Sreedhareeyam Ayurvedic Eye Clinics & Panchakarma Centres Pvt Ltd. is today the largest chain of Ayurvedic Eye Hospitals in India. It spans over 23 treatment centres all across the country which attract patients from all over the world. A team of 23 professionally qualified doctors and 350 support staff take care of the patients who walk into Sreedhareeyam centres with a hope to cure long prevailing diseases and ailments.

The group's medicine manufacturing unit, Sreedhareeyam Ayurvedic Medicines was established to cater to the most vital need of standardized high-quality medicines in high volumes for treatments and also to achieve consistency in quality of medicines. The unit is GMP certified and follows aseptic manufacturing processes and stringent quality

control measures. While all the equipment for processing and packaging are state-of-the-art, the ingredients and formulations adhere strictly to the procedures and guidelines outlined in the ancient parchments (Thaliyolas) and ancient books (Granthas), the most invaluable assets of the Mana. The facility has all the modern medicine manufacturing facilities including a most modern sterile eyedrop manufacturing unit, Fully Automatic Capsule Filling Machines, Blister Packing Machines, bottling machines, labelling machines and tablet punching machines. After assessing and reviewing the safety hazards, ISO 22000: 2005 FSMS certification was awarded to the Unit in 2011, by the International Certifying Agency- BUREAU VERITAS.

34. Mr. Yash Chandan
Founder: NY Embark / Business Development Head: Pearls Metals
Shree Rajendra Vihar Co-Op Housing Society Ltd, Office No. 1 &2, Ground Floor, 12th X Lane,, Khetwadi, Grant Road, Mumbai, 400004
T: +91 9967131600
E: yash@biopapro.com
W : www.biopapro.com / www.pearlsmetals.com

Personal Profile

An impeccable blend of striking business instincts and an enduring academic inclination led him to undertake a Bachelor's degree in Business management from HR College in Mumbai and subsequently, a master's degree in commerce from Mumbai University. And in the year 2018 finished his second master's degree from Babson College, Boston.

Always a conscientious learner, Yash was enrolled in a short-term program in Managerial accounting and financial control from London School of Economics and global leadership from Stanford University, California.

An eagerness to add on to his skillset led him to study Mandarin in Shenzhen in 2014, after which he interned with a Chinese logistics company in China for several months.

Brought up with social values inculcated deep within by his father at a very early age, Yash is an altruistic person. He spent several months working in the CSR department of PWC in Egypt to undertake an awareness campaign for blood donation, 'Triple Effect' in 2013.

At a young age of 22, he had co-founded two thriving startup ventures and was successfully running a steel trading firm, Pearls Metals in Mumbai and later expanded the company to start exports and imports in Latin American countries. In 2019 Yash was able to translate his vision into reality when he co founded NY Embark and his brand Biopapro was born.

Yash is a curious, ambitious and very hard working person. Loves to interact with people. He truly believes that with hard work and a set goal everything can be attainted. He wishes to make a positive impact through work.

Company Profile

NY Embark

Biopapro , a brand under NY Embark manufactures and distributes a wide range of biodegradable alternatives, such as Biosip paper straws, Biobite tableware, food packaging boxes and Bio wooden cutlery.

Pearls Metals

Pearls Metals for the last 30 years deals in Supplying Engineering raw Materials and specialises in SOS(urgent) requirements for Pipes & Pipe fittings.

Business Interests

We could manufacture products for companies in your country under their brand name. We would like to export paper straw / stainless steel, carbon steel, non – ferrous metals in different sections like plates & sheets, pipes & tubes, bars & rounds, structurals, forged pipe – fittings & flanges.

Export of Biodegradable products and exporters of engineering raw material like stainless steel.

Looking for any new business opportunites in Iceland , Switzerland & Slovenia
